# Splashtop Business Access

**splashtop**®

**Fast, simple, secure remote desktop access for business professionals**

Get fast remote access with Splashtop Business. Increase productivity with smooth, secure access to all your company's applications, files and data.

## Easily access all your processor intensive desktop applications anywhere, anytime, from any device

### A high performance remote desktop solution

Now all types of business professionals can enjoy a truly interactive and intuitive experience with Splashtop's superior remote application and desktop access. Use your existing applications on a mobile device without retraining or re-engineering applications. Splashtop Business is capable of delivering 3D graphics, HD video, and other apps that were previously impossible to use on tablets.

### Key Features and Benefits

- **High Performance -** Get 4K streaming at 40fps and iMac Pro Retina 5K streaming at low latency. Reduced CPU utilization provides more headroom to process applications. Settings can be fine-tuned to get optimal performance. Optimized encoding and decoding engine takes advantage of the latest hardware acceleration from Intel, NVIDIA, AMD.

- **Multi-monitor Support** - Remote into multiple monitors connected to your workstations.

- **Broad Device Support** - Remote into your Mac, Windows or Linux computer from any Mac, Windows, iOS, Android, or Chromebook device.

- **SSO Integration (upgrade to Splashtop Enterprise)** - Easy, secured and centralized authentication. Integrations with all major identity providers.

- **Centralized Admin Console** - For large deployments, IT admins can easily deploy and manage employees' remote access to comp ters.

- **Secure Connections** - Get secure infrastructure, intrustion protection, SSL/AES 256 bit encryption and other advanced security features.

- **Increased User Productivity** - Intuitive gestures and menu interface delivers a native application experience. Customizable shortcuts allow easy access to application features. Whiteboard allows users to annotate over content. Get file transfer, remote print and other in-session features.

## Who Benefits?

- Business owners - ensure company data is protected while keeping mobile employees productive.
- Field/sales reps - access the company's internal systems or view the latest sales presentations and training materials.
- Managers - ensure teams remain productive when away from their desks.
- Professionals who need to view or transfer files on company computers without VPN access, in industries including: accounting, banking, dental, energy, insurance, legal, medical, research, retail, and science.

**business**

"I dumped LogMeIn over a year ago for the same reason everyone talks about: cost!!! And been using Splashtop Business since then without any regrets. I fully been recommending it to my work colleagues, as a great tool to stop hauling their laptops or avoid stressing out when they are away from their home or office desktops. Easy and very dependable to use."

— Juan C Ryan
